<p><b>Custom Cageworks</b></p>	<p>Glider Grub</p>	<p>DEHULLED SOYBEAN MEAL, CORN FLOUR, WHEAT MIDDINGS, FRUCTOSE, CASEIN, DRIED WHOLE EGG, WHEAT GERM, GROUND WHEAT, ANIMAL FAT PRESERVED WITH BHA, DRIED WHEY, CORN GLUTEN MEAL, SOYBEAN OIL, DRIED BEET PULP, CALCIUM CARBONATE, BREWERS DRIED YEAST, WHEAT BRAN, DEHYDRATED ALFALFA MEAL, SODIUM HEXAMETAPHOSPHATE, FISH MEAL, SALT, L-ASCORBYL-2-POLYPHOSPHATE (SOURCE OF VITAMIN C), ORANGE FLAVORING, FOLIC ACID, TAURINE, PYRIDOXINE HYDROCHLORIDE, CHOLECALCIFEROL (SOURCE OF VITAMIN D3), MENADIONE DIMETHYLPYRIMIDINOL BISULFITE (SOURCE OF VITAMIN K), D-ALPHA TOCOPHERYL ACETATE (SOURCE OF NATURAL VITAMIN E), CHOLINE CHLORIDE, IRON POLYSACCHARIDE COMPLEX, CALCIUM PANTOTHENATE, DL-METHIONINE, VITAMIN A ACETATE, BIOTIN, THIAMIN MONONITRATE, CYANOCOBALAMIN (SOURCE OF VITAMIN B12), RIBOFLAVIN, NICOTINIC ACID, COBALT POLYSACCHARIDE COMPLEX, COPPER POLYSACCHARIDE COMPLEX, MANGANESE POLYSACCHARIDE COMPLEX, ZINC POLYSACCHARIDE COMPLEX, ETHYLENEDIAMINE DIHYDRIODIDE, SODIUM SELENITE.</p>	<p>Crude protein not less than 22 % Crude Fat not less than 9% Crude Fiber not more than 4%</p>	<p>Glider Grub is designed to be an essential part of your glider's total feeding system. This high protein dry food is designed to take the place of live food and cooked meat supplying the gliders protein needs. Insects and cooked meat can still be given as a treat. The great advantage is that sugar gliders that are fed Glider Grub, plenty of fruits, plenty of vegetables and very little meat or live food, have no order. In addition, they also never get to fat and they seem to stay very healthy.</p> <p>Place Glider Grub in a bowl and refresh it as needed. It should be kept in the cage at all times (fed free choice).</p>
<p><b>Exotic Nutrition</b></p>	<p>Baby Premium Sugar Glider Diet</p>	<p>SOYBEAN MEAL, APPLE, BEET PULP, BLOODMEAL, GROUND ROASTED SOYBEANS, BLUEBERRIES, BROCCOLI, HONEY, RASBERRIES, BEE POLLEN, CANE MOLASSES, CORN GULTEN MEAL,CALCIUMCARBONATE, MONO DICALCIUM PHOSPATE, SALT, EUCALYPTUS, YEAST CULTURE, L. <p><b>Quiko</b></p>	<p>Sugar Glider Food</p>	<p>SEE SUNSEED VITA SUGAR GLIDER FORMULA</p>	<p>Crude protein (min)...25.0%          crude fat (min) ...7.0%          crude fiber (max)...6.0%          moisture (max)...10.0%          calcium (min)...2.25% (max) 2.75%          phosphorous (min)...1.2%          salt (min) 1.2% (max) 1.4%          vitamin A 6,000 IU/lb</p>	<p>Feed approximately 1 ounce (2-1/2 level tablespoons) of pellets per day per sugar glider (lactating gliders should be offered feed at all times). Replace the Quiko sugar glider food each morning and provide fresh vegetables, fruits, and insects in the evening. Remove and discard any uneaten food each morning. Fresh water should always be available. Clean and refill containers daily. Important Note: Sugar gliders have unique dietary requirements. While this prepared food is an excellent base diet, it should only make up about 50% of your pet's daily intake. The balance of the diet should consist of approximately 40% fresh vegetables (such as dark green leafy vegetables, sweet potatoes, and carrots), and 10% fruits (melons, apples, and bananas). The addition of small mealworms, wax worms, and crickets is also recommended. Store in a cool dry place.</p>

This staple diet should be left in the cage for twenty four hours, and any uneaten portion discarded and replaced nightly. The balance of your sugar gliders' diet should consist of fruit/veggie sources and protein fed each evening with uneaten portions discarded in the morning to prevent your gliders from eating spoiled leftovers.</p>

Wholesome Balance Chicken and Brown Rice Blend is intended to meet only part of the sugar glider's nutritional needs. You will need to continue supplementing your sugar glider's balanced meal plan with a single serving of fresh fruit or veggie, a fresh protein such as mealworms, hoppers, crickets, boiled chicken, or other low fat / high protein food sources, and a vitamin and calcium supplement each evening. If you are currently feeding ZooKeeper's as the "free choice" part of the SunCoast Diet, simply swap the Zookeeper's for Wholesome Balance. You don't need to change any other parts of the diet.</p> <p>Wholesome Balance is nutritionally balanced as a freestanding food, but Vionate and RepCal are still needed to balance the fresh food offerings that are recommended for the overall SunCoast diet plan. Wholesome Balance can also be fed free choice with the other sugar glider diets such as BML, Leadbeater's, or popular variations on these mainstream diet plans.</p> <p>Instructions                  We suggest that you offer one tablespoon of Wholesome Balance in the evening per sugar glider. If they don't eat all the food and don't spoil the food, you can "top off" each evening to bring the offering up to one tablespoon per sugar glider. 1.5 pounds of Wholesome Balance sugar glider food will feed 2 gliders for 2 months or 4 gliders for 1 month.</p>
